FEBRUARY 4, 2005
FOR IMMEDIATE RELEASE

FORMER KC POLICE OFFICER SENTENCED FOR SECURITY FRAUD SCHEME

KANSAS CITY, Mo. – Todd P. Graves, United States Attorney for the Western District of Missouri, announced that a former sergeant in the Kansas City, Mo., Police Department was sentenced in federal court today for a \$29,000 fraud scheme involving security services at several apartment complexes.

Robert R. Maize, 46, of Kansas City, Mo., was sentenced by U.S. District Judge Ortrie D. Smith this morning to five years of probation. The court also ordered **Maize** to pay \$29,099 in restitution. **Maize** was employed with the Kansas City, Mo., Police Department since June 1982, attaining the rank of sergeant.

On Oct. 7, 2004, **Maize** pleaded guilty to wire fraud. **Maize** admitted that he charged clients for security services that were not provided. The \$29,099 overpayment illegally received by **Maize** came from federal grant funds that were earmarked for security at apartment complexes on Armour Boulevard in Kansas City, Mo.

In January 1999, Graves said, **Maize** began providing security services for several Kansas City apartment complexes, first through Consulting Security Specialists, Inc., and later through Armour Consulting Corporation, Inc. Those firms, owned by **Maize**, utilized off-duty Kansas City police officers.

The apartment complexes included the Bainbridge Apartments at 914 E. Armour Blvd., the Georgian Court Apartments at 400 E. Armour Blvd., and the Linda Vista Apartments at 1301 E. Armour Blvd., which were managed by National United Properties. They were among several apartment complexes on Armour Boulevard between Main Street and The Paseo that formed the Armour Boulevard Neighborhood Task Force (ABNET) to take advantage of federal grant funds.

In September 1999, ABNET began receiving federal funding from the New Approach

Anti-Drug Program through the U.S. Department of Housing and Urban Development, which allowed for \$3,000 per month for contracted security services at the apartment complexes.

From September 1999 to December 2001, Graves said, **Maize** caused billings to National United Properties for approximately 743.5 hours of security services which were not actually provided by police officers or other security officers, resulting in overpayment to **Maize's** companies of approximately \$29,099. **Maize** submitted false billings to National United Properties, Graves explained, and National United Properties transmitted billing information to HUD, which would transfer funds to pay **Maize's** companies.

For example, Graves said, **Maize** submitted information in October 2001 resulting in a bill to National United Properties for \$8,000 in security services. **Maize** knew that much of the bill reflected services that had not actually been performed. HUD later wired \$8,000 to an account in the name of Bainbridge Apartments at Bank of America in Kansas City, to permit National United Properties to pay Armour Consulting Corporation for security services.

This case was prosecuted by Assistant U.S. Attorney J. Daniel Stewart. It was investigated by the Federal Bureau of Investigation and the Kansas City, Mo., Police Department.
